

Cadillac Escalade / Chevrolet Suburban / Chevrolet Tahoe Front & Rear Brake Upgrade

alcon
specialist brakes & clutches

Key features and benefits

- Gains in performance over stock standard duty braking system:
 - Up to 23% reduction in disc temperature rise
 - Up to 45% reduction in front and rear pad work rates
 - Up to 10% increase in available brake torque
 - Up to 10% reduction in pedal effort
- Ductile iron caliper housing providing maximum strength and stiffness as well as high resistance to impact and fatigue
- Acid zinc finish for maximum corrosion protection
- High friction pads increase stopping power
- Large rotors increase brake torque and thermal capacity, allowing the vehicle to safely operate at armoured weights and reducing potential for brake fade
- Increased pad area reduces temperatures and increases pad life at armoured vehicle weights

Specifications

- High temperature seal material
- Wiper seal on every piston for dirt exclusion
- Compatible with stock OEM actuation
- Fits many 19.5" & 20" armoured specification wheels
- Discrete styling
- Bleed screws on in-board side only for maximum tamper-proof safety
- Pad push-back springs for optimum wear resistance off-road

	Front	Rear
Brake kit part no.	BKC1559BF13	
Caliper	6 piston	4 piston
Size (pistons)	41.3 / 44.5 / 41.3	4 x 34.9
Disc	375x35mm	370x28mm
Pad material	Heavy duty	Heavy duty

Usage: On and off-road
Armoured up to 6,000 kg

(Vehicle rating is based upon generic vehicle data. Specific vehicle axle weights, tyre rolling radii, centres of gravity, maximum speed, etc. may vary by customer application. Alcon cannot be liable for issues relating to variances of vehicle specification)

Fits: 2015 onwards (GMTK2xx) - Cadillac Escalade, Chevrolet Suburban (not HD), Chevrolet Tahoe

Included in the kit: Front & rear calipers, front & rear discs, bracket kits, pad sets
